New Course: Math 165 will replace Math 163 beginning in fall 2008. Math 165 is a four credit course where Math 163 was five credits. Math 164 will be taught as before during fall 2008. Math 166 will replace Math 164 beginning in spring 2009. Math 166 will be a four credit course. A new course, Math 171 Multidimensional Mathematics, will begin in fall 2008. It will be a prerequisite for Math 261 beginning fall 2009.

Course Content: An outline of the content of both 165 and 164 is attached.

Honors Credit: Honors credit is only available by taking the honors Calculus (S163, S164) sections.

Final Exam: There is a common final exam on Saturday, December 6 from 3:30 pm until 5:30 pm. The finals will be graded together immediately following the exam.

Missed Final: If a student MUST miss the common final they need to supply a legitimate reason and evidence of the reason to the instructor. If the reason is seen as legitimate by the instructor then it should be passed on to the course coordinators no later than Wednesday, November 26. The student can then take the alternate final which will be scheduled for a date before the common final.

Calculators: No calculators of any kind will be permitted on the final exam. How calculators are used on the midterm exams is up to the individual instructor.

Sample Finals: The sample final and the official finals from past semesters are be posted on the department’s course webpage for use by the students and instructors.

Course coordinators: Mike Penna and Bruce Kitchens
