

Luoding Zhu

Department of Mathematical Sciences
Indiana University - Purdue University Indianapolis (IUPUI)
402 N Blackford St, Indianapolis, IN 46202
Phone: (317)278-9225(O) **E-mail:** luozhu@iupui.edu

EDUCATION

- PhD in Applied Mathematics (2001), Courant Institute of Mathematical Sciences, New York University, USA (Advisor: Prof. Charles S. Peskin)
- MS in Fluid Dynamics (1992), Beijing Institute of Applied Physics and Computational Mathematics (BIAPCM), China (Advisor: Prof. Jihai Wang)
- BS in Mechanics (1989), Department of Mechanics, Zhejiang University, China (Advisor: Prof. Benzhao Zhang)

ACADEMIC APPOINTMENT

- Associate Professor (July 2010 - Present), Department of Mathematical Sciences, Indiana University - Purdue University Indianapolis
- Assistant Professor (August 2004 - June 2010), Department of Mathematical Sciences, Indiana University - Purdue University Indianapolis
- Postgraduate Researcher (September 2001 - July 2004), Division of Computational Science and Engineering, Department of Computer Science, University of California Santa Barbara (Mentor: Prof. Linda Petzold)
- Research Associate/Assistant Professor (September 1992 - June 1997), State Key Laboratory of Computational Physics, BIAPCM, China

RESEARCH INTERESTS

- Fluid Dynamics
- Modeling and Simulation of Blood Flows
- Modeling and Simulation of Cell
- Numerical Methods for Fluid-Structure-Interaction with Applications
- Parallel Scientific Computing
- Machine Learning with Application to Computational Fluid Dynamics

Ongoing Research Projects

- 1) A new 3D parallel immersed boundary (IB) method with application to hemodialysis (funded by NSF-DMS, PI, participating graduate students: Z Bai and Y Fu)
- 2) Multiscale modeling and simulation of interstitial fluid flow over an osteocyte in bone matrix

- 3) Modeling and simulation of cancer cell metastasis
- 4) An extreme scale IB method with real-time data analytics

RESEARCH FUNDING

Current Research Funding

- Luoding Zhu (PI), Fengguang Song (Co-PI, Computer Science, IUPUI), “Collaborative research: a new three-dimensional parallel immersed boundary method with application to hemodialysis”, \$209,314, Division of Mathematical Sciences, National Science Foundation, Award No. DMS-NSF 1522554. September 15 2015 - August 31 2018.

Past Research Funding

- Luoding Zhu, Sungsoo Na, and Hiroki Yokota, “Modeling and simulation of fluid flows around osteocytes”, May 1 2015 - Dec 31 2016. \$10,000, Integrated Nanosystems Development Institute (INDI), IUPUI.
- Yongguang Cheng, Luoding Zhu, and Hui Zhang, “A 3D immersed boundary method for turbulent flow with application”, 650,000 Yuan (approximately \$100,000), Chinese National Science Foundation (NSFC), Division of Mathematical and Physical Sciences, January 1 2012- December 31, 2015. (Provided funds of \$17,000 for the purchase of a CPU-GPU supercomputer for Zhu which is still being used by Zhu and his graduate students.)
- Luoding Zhu, Released Time for Research Grant (RTR), \$10,000, Office of Vice Chancellor for Research, IUPUI, May 2013 – April 2014.
- Luoding Zhu, “A 3D implicit immersed boundary method with application”, \$193,484, National Science Foundation (NSF), DMS-0713718, July 1 2007 to June 30 2010.

Presentations at Conferences and Meetings (not invited)

13) “A new 3D IB method for non-Newtonian fluid structure interaction”, the 70th Annual Meeting of the American Physical Society (APS) Division of Fluid Dynamics (DFD), Denver, Colorado, USA, November 19 - November 21, 2017.

12) “A new 3D IB method for non-Newtonian fluids”, the International Workshop on Computational Mathematics and Scientific Computing, Qingdao, Shandong, China, June 28 - July 2, 2017.

11) “A 3D immersed boundary method for thin-walled structures”, the 12th International Conference for Mesoscopic Methods in Engineering and Science, Beijing, China, July 20 - 24, 2015.

10) “A 3D lattice-Boltzmann based implicit immersed boundary method” (poster), the Workshop on Fluid Motion Driven by Immersed Structures, Fields Institute, University of Toronto, Canada, August 9 - 13, 2010.

9) “A lattice Boltzmann based implicit immersed boundary method for fluid-structure-interaction” (poster), the 62nd Annual Meeting of the American Physical Society (APS) Division of Fluid Dynamics (DFD), Minneapolis, Minnesota, USA, November 22 - 24, 2009.

8) “A 3D immersed boundary method by the lattice Boltzmann approach with application”, the 6th International Conference for Mesoscopic Methods in Engineering and Science, Guangzhou, China, July 13 - 17 2009.

7) “Scaling laws for drag of a compliant body in an incompressible viscous fluid”, the 60nd Annual Meeting of the American Physical Society (APS) Division of Fluid Dynamics (DFD), Salt Lake City, Utah, USA, November 19 - 22, 2007.

6) “Simulation of elastic filaments interacting with a 2D viscous pulsatile flow by the IB method”, the 7th World Congress on Computational Mechanics, Los Angeles, California, USA, July 16 - 22, 2006.

5) “Simulation of a 2D flow past a flexible fiber tethered at its center point: vortex shedding”, the 58nd Annual Meeting of the American Physical Society (APS) Division of Fluid Dynamics (DFD), Chicago, Illinois, USA, November 20 - 22, 2005.

4) “Simulation of a non-homogeneous elastic filament falling in a flowing soap film”, the Third M.I.T. Conference on Computational Fluid and Solid Mechanics, Massachusetts Institute of Technology, Boston, USA, June 14 - 17, 2005.

- 3) “Drag of a flexible fiber in a 2D moving viscous fluid”, the SIAM Conference on Computational Science and Engineering, Orlando, Florida, USA, February 12 - 15, 2005.
- 2) “Parallel simulation of fluid slip at 3D microchannel walls”, the SIAM Conference on Parallel Processing for Scientific Computing, San Francisco, California, USA, February 25 - 27, 2004.
- 1) “Simulation of a flexible flapping filament in a flowing viscous fluid by the immersed boundary method”, RPI Applied Math Days, Troy, New York, November 2000.

AWARDS AND HONORS

- Favorite Professor, selected by students of the Athletics Department of the IUPUI, 2006, 2011
- Outstanding Dissertation in the Natural Sciences Award, New York University, April, 2002
- William Magnus Prize (for significant contribution to mathematical sciences), Courant Institute of Mathematical Sciences, New York University, February 2002
- Harold Grad Prize, Courant Institute of Mathematical Sciences, New York University, April 2001
- The First Prize at the 12th Academic Conference at the BIAPCM, Oct. 1996 (paper presented: 3D Simulations of Richtmyer-Meshkov Instability)
- Admission to the graduate school of the BIAPCM with exemption from national entrance examinations, 1989

OTHER PROFESSIONAL ACTIVITIES

Editorial Board:

Theoretical and Applied Mechanics Letters (January 2011 - Present)

Guest Editor of the Special Issue of Computational and Mathematical Methods in Medicine (2016)

Reviewed a research proposal for German-Israeli Foundation (GIF) for Scientific Research and Development (GIF Young Scientists Program (2015))

Reviewed tenure/promotion material for an assistant professor (Old Dominion 2013)

Reviewed articles for the following journals:

Journal of Computational Physics

Physics of Fluids

SIAM Journal for Scientific Computing

Computer Methods in Applied Mechanics and Engineering

The Bulletin of Math Biology

Journal of Applied Numerical Mathematics

Journal of Thermophysics and Heat Transfer

Journal of Zhejiang University Science A

Journal of Fluid Mechanics

STUDENTS/POSTDOCS MENTORED (on IUPUI campus)

Zengding Bai, PhD Research Advisor, Math, IUPUI, August 2013 - present

Yuankun Fu, PhD Research Co-Advisor, Computer Science, IUPUI, September 2015 - present

Jose Celaya-Alcala, Co-Mentor for REU at IUPUI, Univ of Arizona, June 13 -August 5 2017

Alexa Kovacs, Co-Mentor for REU at IUPUI, Rose-Hulman, June 13 -August 5 2017

Robert Zigon, MS Research Advisor, Math, IUPUI, August 2015 - September 2016

Madison Sanden, Mentor for REU at IUPUI, Univ of Kentucky, June 13 - August 5 2016

Prateek Nagar, MS Research Co-Advisor, Computer Science, IUPUI, September 2013 - May 2015

Jake Zatecky, Undergraduate Capstone Experience Advisor, Math, IUPUI, Fall 2012, Spring 2013

Everton Lima, Co-Mentor for MURI at IUPUI, Computer Science, IUPUI, June - July 2012

Sam Kukadia, Co-Mentor for MURI at IUPUI, Computer Science, IUPUI, June - July 2012

Henry Chen, PhD Research Co-Advisor, Biomedical Engineering, IUPUI, Sept 2008 - Sept 2011

Philip Oliver, Undergraduate Research Advisor, Biomedical Engineering, IUPUI, Fall 2010

Jian Hao, Postdoc Research Advisor, Math, IUPUI, November 2008 - July 2010

Brian Denton, Undergraduate Capstone Experience Advisor, Math, IUPUI, Spring 2010

Derek Black, Undergraduate Capstone Experience Advisor, Math, IUPUI, Spring 2009

Sarah Simon Undergraduate capstone experience Advisor, Math, IUPUI, Summer II 2005

STUDENTS MENTORED (outside IUPUI)

Chao Tang, PhD Research Co-Advisor, U of Sci & Tech of China, August 2013 - September 2015

Runan Hua, PhD Research Co-Advisor, U of Sci & Tech of China, August 2010- September 2014

Willie Zhu, the Siemens Competition in Math, Sci & Tech, Carmel High School, August - October 2014

Fangbao Tian, PhD Research Co-Advisor, U of Sci & Tech of China, August 2009 - September 2012

Gaojin Li, MS Research Co-Advisor, U of Sci & Tech of China, September 2010 - July 2012
